

CALL FOR PROPOSALS (DEADLINE 31/07/2022)

After Nietzsche

Philosophy Beyond the Crisis of Modern Reason

Our next seminar (Turin, 24-25/11/2022) aims to explore the **philosophical, scientific, and cultural ramifications of Nietzsche's thought**, regarded as the *ultimate expression of the nineteenth-century crisis of reason*. We welcome proposals focusing—preferably, but not exclusively—on the following topics, drawn from Giorgio Colli's *Dopo Nietzsche* [*After Nietzsche*]:

- ◆ crisis of philosophical systems and of the foundations of sciences
- ◆ modernity between progress and decadence
- ◆ value theory and will to power
- ◆ eternal recurrence, nihilism, and the overman
- ◆ body, madness, and health
- ◆ origin, nature, and function of art
- ◆ style, expression, and rhetoric
- ◆ Apollonian and Dionysian as forms of thought, art, and life
- ◆ reception and interpretation of Nietzsche (philosophy, history of ideas, philology, psychology, art, and literature)

We ask participants to send the following documents to admin@centrostudigiorgiocolli.it:

- an anonymised .doc or .pdf file containing a short abstract (up to 500 words), a title, and a short bibliography (up to 10 entries);
- a separate .doc or .pdf file containing the author's name, academic affiliation (if applicable), and email address, as well as a brief bio.

We welcome proposals in Italian and English.
